Microservices

Material In Motion – Software Engineer (Feb 2020 – Oct 2021)

- Designed and implemented full-stack enterprise applications using Angular and React.
- Developed REST APIs and integrated third-party systems and internal tools.
- Built HR, workforce management, and operations applications improving productivity.

Technologies: Angular, React, Ionic, Kubernetes, Docker, NodeJS, Firebase, REST APIs

Banyan Hills Technologies – Software Engineer (Dec 2019 – Feb 2020)

- Developed mobile banking demo applications using OutSystems platform.
- Collaborated with clients to gather requirements and deliver Agile-based solutions.

Technologies: OutSystems, JavaScript, HTML, CSS

Honeywell – Software Engineer (Nov 2018 – Nov 2019)

- Built responsive aviation dashboards using React and NodeJS microservices.
- Developed automated test suites improving reliability and code quality.

Technologies: React, NodeJS, MobX, Jest, Mocha

Kodaris Inc – Front End Engineer (Mar 2018 – Oct 2018)

- Developed Angular-based financial and recruitment web platforms.
- Built admin dashboards and enhanced customer onboarding experiences.

Technologies: Angular, Bootstrap, Material Design

Freelance Developer (2016 – 2018)

- Developed project management tools and web applications using React and NodeJS.

EDUCATION - TRAININGS & CERTIFICATIONS

- Bachelor of Engineering – VTU
- Thinkful – Intensive Full Stack Web Development
- Aptech – Higher Diploma in Software Engineering
- Microservices Fundamentals
- Deploying Microservices with Kubernetes
- OutSystems Training
- GitHub Copilot Training
- AWS Technical Essentials
